

June 13, 1986

Springfield Septic Service
2048 North East Avenue
Springfield, Missouri 65803

Dear Sirs:

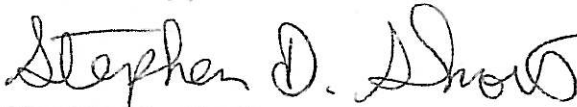

This office received a complaint from the public that the cleaning of portable toilets with the water going to the street curb at 2048 East Avenue occurred on June 9, 1986. This office did investigate the complaint on June 10, but could not confirm the event.

The City has special concern with this complaint because Springfield Septic Service currently has a contract with the Public Works Department for portable toilet rental. The disposal of portable toilet waste and septage, whether from City projects or not, should be by proper methods as approved by the Missouri Department of Natural Resources.

Please be advised that if this complaint was due to any activities on your part, it may constitute a violation of City, State and Federal regulations. This office maintains periodic surveillance throughout the corporate limits of the city, and will watch this area closely. If this activity is not due to any activity on your part, you can help by reporting any such activities to this office.

If we can be of any assistance or can answer any questions, please do not hesitate to contact this office at 864-1924.

Yours truly,

Stephen D. Short
Water Pollution Control Inspector II
Surveillance & Enforcement
